

11-11-17 TO 30-11-17 LIVES ON THE MOVE

AN EXHIBITION OF PHOTOGRAPHS

The exhibition showcases select photographs from the *Fragmented Transitions* research project, based at the Oxford Department of International Development, 2014-2017.

These photographs were taken by researchers who lived with migrant workers in India for a year.

Join them as they journey through the country and allow us a glimpse into their lives, loves and labours.

Wolfson College

Linton Road OX2 6UD
